

Features and Benefits

- In accordance with API RP 1004, ADR and En13081
- Lightweight pressure die-cast construction for maximum strength and weight reduction
- Nominal size 4" or DIN100
- Minimum number of internals to minimize pressure drop and improve flow rate
- Nitrial Seals
- Compatible with diesel, bio diesel, gasoline, ethanol and methanol
- Mounting plugs for model 300/301 air interlock valve

Use Cause

- Use this vapour check valve to return vapour to the truck during terminal loading and service station drops
- The 3" poppet opens when coupled and closes when disconnected, preventing the vapours from escaping into the atmosphere.
- The valve has 4" female NPT threads, a 4" cam and groove, and tapped mounting holes for the air interlock switch.

General Specifications

- Nominal size 4" or DIN100
- Weight 1.530 Kg
- Working temp. -40°C to +70°C
